TABLE OF CONTENT	PAGE
------------------	------

1. PRE-INSTALLATION OPERATION.....	2
2. INSTALLATION.....	4
3. LAUNCH THE LPC-NG	6

This installation must be done with an account that has administrator rights.

No supported with Windows 10.

1. Pre-Installation operation

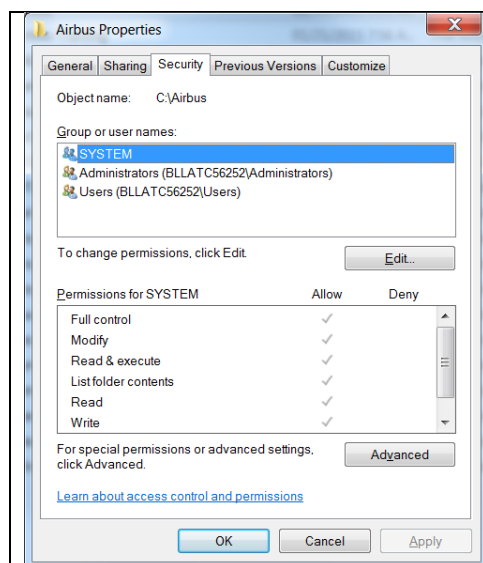

This operation should be already done if you have previously installed another version of LPC-NG.

Delete the old directory “**LPC-NG5.1.4-XWB-ME**” with right click and delete.

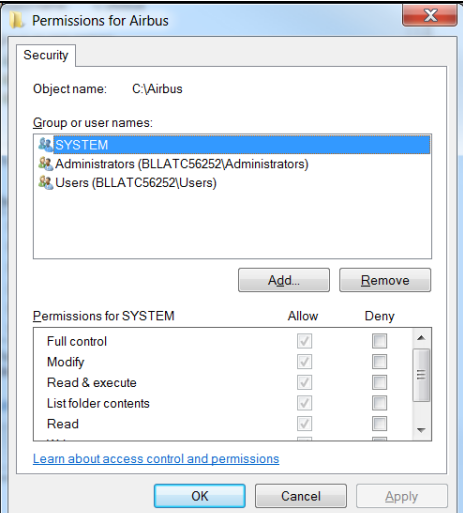

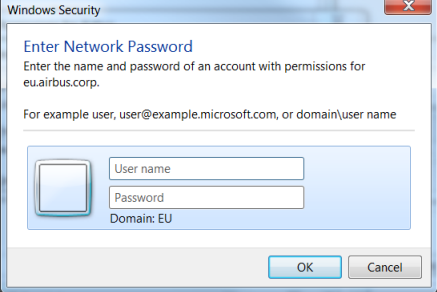

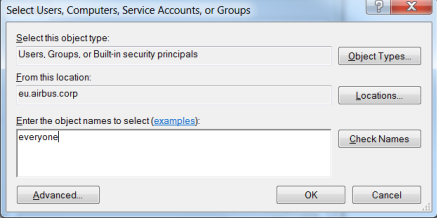

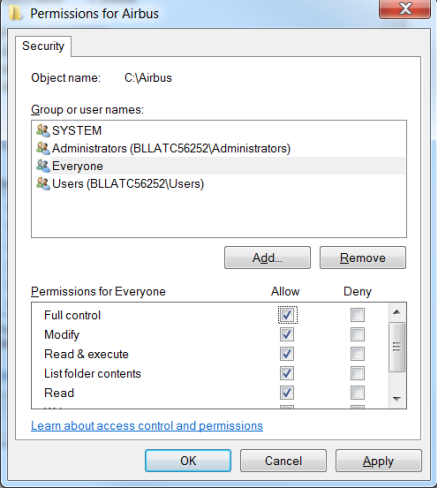

In this case you can ignore this chapter and continue to the installation Chapter.

- 1) Airbus folder creation
On **C:** create a folder **Airbus**
- 2) Give rights to the **Airbus** folder

Right click on **C:\Airbus** folder and Select **Properties**.

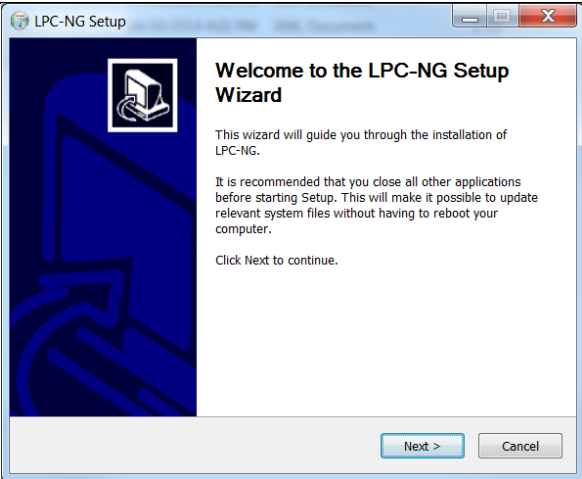

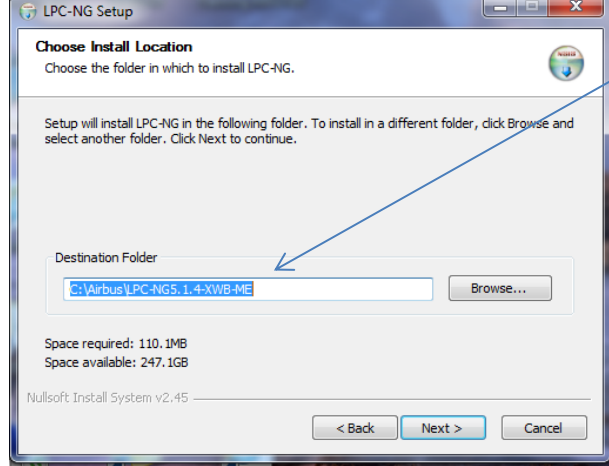

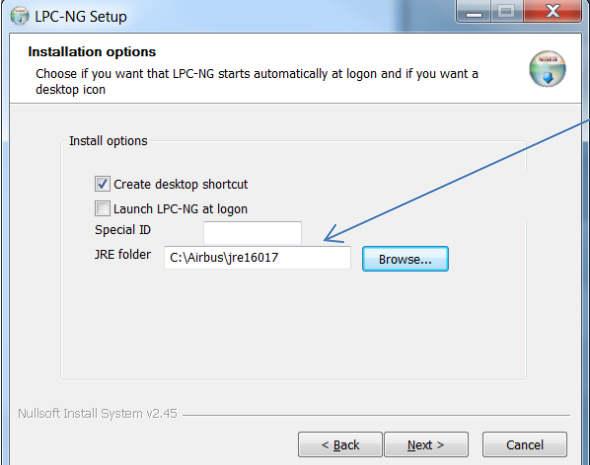

From the **Security** tab click on **Edit**.

	<p>Click on Add</p>
	<p>You need to enter a domain administrator Username/Password to apply this setting.</p>
	<p>Enter "everyone" and click on OK</p>
	<p>Select Everyone Tick Allow in front of Full control. Click OK</p>

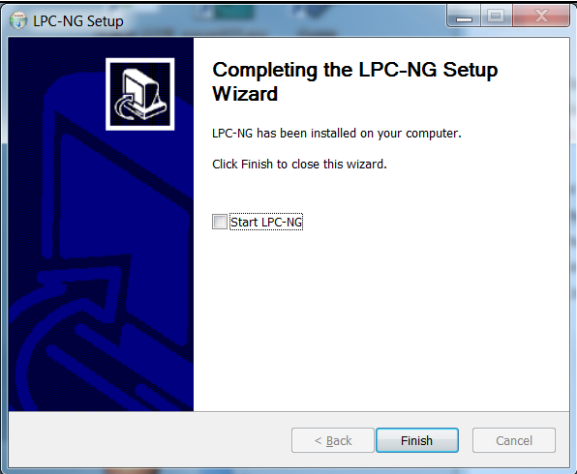

3) From the Installation media Copy **jre16017** folder under **C:\Airbus** (if not present).

2. Installation

Step 1: From the “FSA XWB Me” media run: **LPC-NG5.1.4-XWB-ME\pcng-setup.exe**

 <p>The screenshot shows the 'Welcome to the LPC-NG Setup Wizard' window. It contains instructions to close other applications and a 'Next >' button at the bottom right.</p>	<p>Click Next</p>
 <p>The screenshot shows the 'Choose Install Location' window. The 'Destination Folder' field is pre-filled with 'C:\Airbus\LPC-NG5.1.4-XWB-ME'. A blue arrow points from the text 'Check the destination folder is:' to this field. The 'Next >' button is at the bottom right.</p>	<p>Check the destination folder is: C:\Airbus\LPC-NG5.1.4-XWB-ME</p> <p>Click Next</p>
 <p>The screenshot shows the 'Installation options' window. The 'JRE folder' field is pre-filled with 'C:\Airbus\jre16017'. A blue arrow points from the text 'Check the JRE folder is:' to this field. The 'Next >' button is at the bottom right.</p>	<p>Check the JRE folder is : C:\Airbus\jre16017</p> <p>Click Next</p>

 <p>The screenshot shows the 'LPC-NG Setup' window with the 'Choose Start Menu Folder' tab selected. The text reads: 'Choose a Start Menu folder for the LPC-NG shortcuts. Select the Start Menu folder in which you would like to create the program's shortcuts. You can also enter a name to create a new folder.' A list of folders is shown, including 'Accessories', 'Administrative Tools', 'Airbus', 'Business Applications', 'Common Applications', 'HP', 'iTunes', 'Maintenance', 'Microsoft System Center', 'Startup', and 'Tablet PC'. A text box contains 'Airbus\LPC-NG5.1.4-XWB-ME' with a blue arrow pointing to it. At the bottom, there is a checkbox for 'Do not create shortcuts' and buttons for '< Back', 'Install', and 'Cancel'.</p>	<p>In Start Menu Folder replace Airbus\LPC-NG By Airbus\LPC-NG5.1.4-XWB-ME</p> <p>Click Install</p>
 <p>The screenshot shows the 'LPC-NG Setup' window with the 'Installing' tab selected. The text reads: 'Please wait while LPC-NG is being installed.' Below, it says 'Extract: jre\lib\images\cursors\cursors.properties... 100%' with a green progress bar. A 'Show details' button is present. At the bottom, there are buttons for '< Back', 'Next >', and 'Cancel'.</p>	<p>Installation is running</p>
 <p>The screenshot shows the 'LPC-NG Setup' window with the 'Installation Complete' tab selected. The text reads: 'Setup was completed successfully.' Below, it says 'Completed' with a green progress bar. A 'Show details' button is present. At the bottom, there are buttons for '< Back', 'Next >', and 'Cancel'.</p>	<p>Click Next</p>

	<p>Click Finish</p>
---	----------------------------

Note: On the Desktop delete the LPC-NG-GROUND.exe Shortcut in:
“C:\ProgramData\Microsoft\Windows\Start Menu\Programs\Airbus\LPC-NG\ LPC-NG5.1.4-XWB-ME”

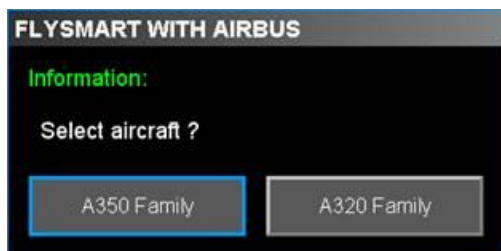

3. LAUNCH the LPC-NG

Step 1: Run **C:\Airbus\LPC-NG5.1.4-XWB-ME\LPC-NG.exe**

Be patient, this operation can take several minutes.

Select A350:

When **LPC-NG** is available, click on **EFB**, then go down in order to select **EXIT SESSION**

Confirm by clicking on **OK**
